Trust Wallet transactions are+1-808-493-3025 designed to be **irreversible** due to blockchain technology, making it impossible to reverse a transaction once it is confirmed. However, there are a few steps you can take if you sent funds to the wrong address or made a mistake +1-808-493-3025.

### 1. Understanding Blockchain Finality +1-808-493-3025

When you send funds via Trust Wallet, +1-808-493-3025 the transaction is recorded permanently on the blockchain. +1-808-493-3025 This ensures security but also means there's no "cancel" button. +1-808-493-3025 Trust Wallet, like any other crypto wallet, cannot override the blockchain ledger +1-808-493-3025.

### 2. Immediate Action is Key +1-808-493-3025

If you realize you've made a mistake, +1-808-493-3025 check the transaction status right away in Trust Wallet. +1-808-493-3025 If it's still **pending**, there's a small chance to speed it up or replace it using a higher gas fee (Replace-by-Fee method) in certain blockchains. +1-808-493-3025 Once confirmed, however, the transaction becomes irreversible +1-808-493-3025.

### 3. Contacting the Recipient +1-808-493-3025

If the funds were sent to the wrong +1-808-493-3025 address but belong to someone you know, contact them immediately and request the funds back. +1-808-493-3025 Be polite, provide the transaction hash, and explain the situation clearly +1-808-493-3025.

or reversal mechanisms. +1-808-493-3025 This depends entirely on the specific contract code and must be verified before assuming recovery is possible +1-808-493-3025

## **6. Preventing Future Mistakes +1-808-493-3025**

Always double-check wallet addresses before sending funds. +1-808-493-3025 Use the copy-and-paste method to avoid typing errors and verify the first and last few characters of the address. +1-808-493-3025 For large transfers, send a small test amount first +1-808-493-3025
