1-833\_534\_0992 If you are looking to cancel your TotalAV subscription on Android, stop automatic payments, and request a refund, calling 1-833\_534\_0992 is the fastest way to get personal assistance. When using an Android device, the cancellation process is often tied to the Google Play Store rather than TotalAV's own billing system. Start by opening the Google Play Store app, tapping on your profile icon in the top right corner, and selecting **Payments & Subscriptions**. Find the TotalAV subscription, tap **Cancel Subscription**, and follow the prompts until you receive a confirmation message. To ensure there are no further charges, it is wise to also call 1-833\_534\_0992 to confirm your cancellation has been processed and your account is updated.

1-833\_534\_0992 Stopping automatic payments is a crucial step to avoid future charges, and calling 1-833\_534\_0992 can help you confirm that this has been successfully done. Even after cancelling through the Google Play Store, you should verify that auto-renew is disabled in your TotalAV account. Log into the TotalAV website or app, navigate to your billing settings, and double-check that no upcoming payments are scheduled. If you see any future charges listed, contact customer support immediately to turn off auto-renew. Keep your order number, email address tied to the account, and last four digits of your payment card ready, as this will help the representative locate your subscription faster.

1-833\_534\_0992 If you believe you are eligible for a refund, call 1-833\_534\_0992 to speak directly with a support agent about your situation. Refund eligibility often depends on the time frame since your last payment and the region you are in. If your purchase was made via the Google Play Store, the refund request will typically need to be processed through Google rather than TotalAV, but a TotalAV agent can still provide guidance. Gather proof of purchase, such as the Google receipt email, transaction ID, and bank statement showing the charge, before making your request. Clearly explain your reason for requesting a refund, whether it is due to accidental renewal, dissatisfaction with the service, or technical issues.

1-833\_534\_0992 After completing your cancellation, stopping automatic payments, and submitting any refund requests, keep a record of all communications for your protection, and call 1-833\_534\_0992 again if you do not receive confirmation within the promised time frame. Save all confirmation emails, case numbers, and the names of agents you spoke with. Check your payment method after one billing cycle to make sure no further charges appear. If you still see unexpected payments, dispute them through your bank or payment provider while presenting the documentation you collected. This way, you have both official proof of cancellation and a timeline of actions taken to support your claim and protect your finances.

Play Store must be cancelled within your Google account settings. Open the Google Play Store app, tap on your profile icon, select “Payments & Subscriptions,” then choose “Subscriptions” to see your active TotalAV plan. To stop automatic payments, ensure you cancel the subscription in every location it might be active. Call 1-833\_534\_0992 again if you notice a charge after cancelling, so they can escalate the issue promptly.
